

## Bed Bug Follow-up / Clean-up Guidelines

- Vacuum up all dead bugs. **DO NOT** vacuum or Clean within 6 inches of the baseboards.
- **ALL** bedding must be washed and dried in a hot dryer for 45 minutes. Do not hang items to dry. The heat of the dryer kills the bugs and eggs.
- **ALL** clothing must remain bagged up if more sprays are required. Use only the clothing you need and place it all back in bags after washing and drying.
- Put fresh bedding and covers on all beds and furniture before using.
