

CRHC Preparation Of Suite For Treatment of Cock Roaches

***This is a **BAITING PROCESS - NOT A SPRAY.**

- ✓ We will need access to all kitchen / bathroom cabinets, cupboards and closets.
They do Not need to be emptied but should be clean and tidy.
- ✓ Remove all **food** from kitchen, bedrooms and basement and store in sealed containers.
- ✓ Your unit must be kept clean of any alternate food sources so the bait will work.
- ✓ Cockroach Bait will be placed in these cabinets and other places throughout the unit.
- ✓ Ensure kitchen cupboards and drawers are accessible.
- ✓ Remove all articles from the top of the fridge.
- ✓ Ensure all garbage is removed and properly disposed of.
- ✓ Basements must be accessible to apply the bait to vents, furnace, water heater and electrical panels.

You do not have to leave during this procedure.
